

## Curriculum Vitae

1. **DATE:** 17 September 2020
2. **NAME:** DONOVAN, JORDAN, T.
3. **PRESENT TITLE:** COMPUTER SCIENTIST
4. **GRADE:** Senior
5. **ORGANIZATIONAL LOCATION:**  
U.S. Army Engineer Research and Development Center  
3909 Halls Ferry Road  
Vicksburg, MS 39180
6. **EMAIL ADDRESS:** [Jordan.t.donovan.cs@gmail.com](mailto:Jordan.t.donovan.cs@gmail.com)
7. **TELEPHONE:** (office) 601-634-4624; (mobile) 601-988-3575
8. **WORK EXPERIENCE:**

U.S. Engineer Research and Development Center, Vicksburg, MS

2015 - Present

- Robotic Integrated Engineer Operations (RIENO)  
Classification Team lead  
2018 - Present
  - Develop machine learning algorithms (primarily CNNs) and visualization tools (metrics as well as layer activations)
  - Perform analysis and improve performance of classification algorithms using metrics and techniques from recent research
  - Identify and apply potential optimization techniques for classification algorithms (specifically for real-time classification)
  - Record techniques and results for publication and presentation
  - Present findings at professional venues
  - Provide neural network visualization expertise to data analytics and robotics teams (specifically NN node activations and optimized inputs)
  - Identify and optimize machine learning design (NN architectures and processes)
  - Train fellow employees in utilization of machine learning frameworks and standards
  - Facilitate business development workshops
- Co-lead of the Mobile Computing Team

2015 - Present

- o Develop mobile applications, application programming interfaces, websites, and databases for mobile applications
- o Oversee and direct team on mobile application design
- o Communicate with and adapt workflows of customer to mobile application
- o Manage contracts within team
- o Identify and remedy user connectivity and functionality for mobile applications

## **9. EDUCATION:**

### **a. Universities attend, years attended, degrees obtained (with dates)**

- Mississippi State University (December 2019), M.S., Major: Computer Science  
GPA: 3.7
- University of Mississippi (May 2015), B.S., Major: Computer Science  
GPA: 3.2

### **b. Other Training and Awards (with agency and year attended)**

- Ludobots – Evolutionary Robotics Simulation (online by Dr. Josh Bongard, 2020)
- Data Science in Python (ITL, 2019) (Certificate received)
- CES Foundation (ITL, 2019)
- NVIDIA Deep Learning for Visualization (ITL, 2019) (Certificate Received)
- NVIDIA Deep Learning for Natural Language Processing (ITL, 2019) (Certificate Received)
- Introduction to Deep Learning (ITL, 2018)
- Introduction to TensorFlow (ITL, 2018)
- Introduction to Deep Reinforcement Learning (ITL, 2018)
- USACE CIO Information Management / Information Technology (IM/IT) Technical Support Team of the Year (ITL, 2018)
- Technical Writing (ITL, 2018)
- Technology Transfer (ITL, 2017)
- Dynamic Presentation Skills (ITL, 2017) (Certificate Received)
- FEMA Certificate of Appreciation for Hurricane Response Efforts (ITL 2017)
- Security + (ITL, 2016) (Certificate Received)
- Dept. of the Army Achievement Medal for Civilian Service (ITL 2016)
- Leadership Development Program – Myers-Briggs, Presentation Skills, StrengthsFinder, Emotional Intelligence, Situational Leadership, 7 Habits, Managing Multiple Priorities (2019 – present)

## **10. PROFESSIONAL OR TECHNICAL SOCIETIES/ORGANIZATIONS:**

### **a. Graduate/Professional Memberships**

- Association for Computing Machinery
- Autonomous Cyber Security Learning Group

#### **b. Undergraduate Memberships**

- Engineering Student Body
- Provost Scholar
- Engineering Scholar
- Mississippi Eminent Scholar Grant Recipient
- Agile Software Engineering Fellowship
- Honor Society Member

### **11. TECHNICAL PRESENTATIONS:**

- • "Evolutionary Selection Criteria and Performance in NAS-Bench-101" RD22 Channel 5 - Decision Making – Artificial Intelligence/Machine Learning B under Modernize our Nation's Infrastructure. Virtual, April 2022.
- • "Open-Ended Evolution for Novel AI Models" Neurobotics Laboratory Periodic Meet. University of Vermont, Burlington, VT, April 2022.
- • "Novel Feature Detectors in CNNs" Deep Learning Periodic Meet. University of Vermont, Burlington, VT, April 2022.
- • "EfficientNet (V1 and V2)" Deep Learning Periodic Meet. University of Vermont, Burlington VT, April 2022.
- • "EfficientNet (V1 and V2)" Neurobotics Laboratory Periodic Meet. University of Vermont, Burlington, VT, February 2022.
- • "Latest Developments in Cellular Automata" Modeling Complex Systems Periodic Meet. University of Vermont, Burlington, VT, December 2021.
- • "Evolutionary Selection Criteria and Performance in NAS-Bench-101" Evolutionary Computation Periodic Meet. University of Vermont, Burlington, VT, December 2021.
- "Real-time Material Segmentation for Robot Operations" RD20 Pecha Kucha-Style presentation. Virtual, October 2020.
- "Real-time Material Segmentation for Robot Operations" Data Science Workshop Poster Session. Virtual, August 2020.
- "FEMS data collection with MICA" ERDC HQ FEMS Demo. Vicksburg, MS, January, 2020.
- "Material Classification for Robotic Integrated Engineer Operations" ITL Symposium Poster Session. Vicksburg, MS, November, 2019.
- "CESAT Mobile Demo" Customer Visit and Technology Demo. Vicksburg, MS, October, 2019.
- "Understanding State-of-the-art Material Classification Through Deep Visualization" *Mississippi State University MS Thesis Defense*. Mississippi State, October 2019.

- “Real-time object and material classification for Robotic Integrated Engineer Operations” *Robotic Integrated Engineer Operations FY 19 Closeout*. Vicksburg, MS, September 2019.
- “Mobile Computing Impact and Growth” *Gains in Education of Math and Science II*. Vicksburg, MS, July 2019.
- “Impact of Mobile Computing in the DoD” *University of Louisiana at Monroe Tour*. Vicksburg, MS, March 2019.
- “Utility of Mobile Applications: Mobile Information Collection Application” *ERDC Tour for Great Lakes and Ohio River Division*. Vicksburg, MS, February 2019.
- “Mobile Computing Across ERDC” *Innovation Alley*. Vicksburg, MS, August 2018. (Need to find presentation and date)
- “Mobile Information Collection Application (MICA)” *Little Rock District Data Collection Info Session*. Little Rock, AR, June 2018.
- “Hurricane Relief Efforts: A Developer’s Story” *Science, Technology, Engineering Workshop*. Vicksburg, MS, March 2018.
- “Utility of Mobile Applications: Blueroof Field Management System” *ERDC Executive Conference Room Briefing*. Vicksburg, MS, November 2017. (Need to finalize date)

## 12. PROGRAMMING LANGUAGES, SOFTWARE, AND OPERATING SYSTEMS:

- |              |                        |              |
|--------------|------------------------|--------------|
| ● SQL        | ● Microsoft SQL Server | ● TensorFlow |
| ● C#         | ● Management Studio    | ● Qt         |
| ● Python     | ● Visual Studio        | ● XCode      |
| ● R          | ● IIS                  | ● Vim        |
| ● HTML       | ● Apache               | ● Git        |
| ● Javascript | ● Jupyter Notebook     | ● Window OS  |
| ● Java       | ● Caffe                | ● Linux OS   |
|              | ● Pytorch              | ● Mac OSX    |

## 13. PROPOSALS:

- "Open-Ended Evolution for Novel AI Models" 6.1 Basic Research. Engineer Research and Development Center - Information Technology Laboratory. January 2022

## 14. PUBLICATIONS:

- Donovan, J. (2019). “Understanding State-of-the-art Material Classification Through Deep Visualization.” MS Thesis
- Donovan, J. (2019). “Understanding State-of-the-art Material Classification Through Deep Visualization.” *ERDC Library*, RIENO.
- Donovan, J. (2019). “Material Classification for Robotic Integrated Engineer Operations.” *ERDC Library*, RIENO.

- Donovan, J., Pettitt, J. “Mobile Information Collection Application: User Manual” *ERDC Library*, MICA.
- Donovan, J., Pettitt, J. “Mobile Information Collection Application: Installation Manual” *ERDC Library*, MICA.
